ABOUT the HOST AND SPONSOR ORGANIZATIONS

NATIONAL ENDOWMENT FOR DEMOCRACY

The National Endowment for Democracy (NED) is a private, nonprofit organization created in 1983 to strengthen democratic institutions around the world through nongovernmental efforts. NED is governed by an independent, nonpartisan board of directors. With its annual congressional appropriation, it makes hundreds of grants each year to support pro-democracy groups in Africa, Asia, Eurasia, Latin America, and the Middle East.

WORLD MOVEMENT FOR DEMOCRACY

The World Movement for Democracy, launched in 1999, is a global network of democrats who have come together to cooperate in the promotion of democracy. Led by an international Steering Committee, the World Movement offers new ways to give practical help to democrats who are struggling to open closed societies, challenge dictatorships, democratize semi-authoritarian systems, consolidate emerging democracies, and strengthen established democracies. Through World Movement networks, participants can assist each other by sharing information and experiences; developing local, regional, and global strategies; launching collaborative initiatives; and developing relationships of cross-border solidarity. The Washington, DC-based National Endowment for Democracy (NED) serves as the World Movement Secretariat..

The World Movement serves as an **ally** of democrats in dangerous situations who need political solidarity and moral support; as a **lobby** for the cause of democracy in international bodies and in countries where democracy is under siege; as a **facilitator** that can help link democrats from different countries and regions to exchange information more efficiently, work together, and help one another; as an **innovator** that can encourage the development of new ideas and effective approaches for overcoming obstacles to democracy; as a **big tent** that can provide a meeting place for democrats who are active in different professional areas, such as human rights, law, political party development, workers' rights, economic reform, research, and education; as a **resource center** that can make basic materials on democracy available to groups around the world; as a **monitor** that can convey the views of democracy activists on the efficacy of different forms of democracy support; and as a **catalyst** to stimulate new initiatives and help shape the priorities of the broader community of institutions concerned with the advancement of democracy.

THE HURFORD FOUNDATION

The Hurford Foundation was established to honor the late John B. Hurford (1938 – 2000), an internationalist and philanthropist who played an important role in helping to conceptualize and realize the World Movement for Democracy. For many years, the Hurford Foundation has been an important supporter of the World Movement for Democracy. The Hurford Foundation generously supports the Hurford Youth Fellows Program.

INTERNATIONAL FORUM FOR DEMOCRATIC STUDIES

NED established the International Forum for Democratic Studies (the Forum) in 1994 in response to the need for sustained and serious analysis of democracy's problems and prospects throughout the world. Since then, the Forum has become the preeminent center for the study of the theoretical and

practical aspects of democratic development worldwide. Through its fellowship programs, its publication of the quarterly *Journal of Democracy*, and its public seminars and symposia, the Forum enhances efforts to foster and improve democracy while also making important contributions to the field of comparative democratic studies.

ABOUT THE PROGRAM

HURFORD YOUTH FELLOWS PROGRAM

The Hurford Program seeks to build the leadership skills, enhance the organizational talents, and harness the potential of emerging democracy leaders from around the world. Through the Hurford program, four youth activists per year spend three months in the program, during which they expand their global network, learn lessons from activists from democracy movements around the world, and contribute to the development of the World Movement for Democracy. Fellows will be expected to organize online discussion to generate active engagement among youth activists around the world. Hurford Youth Fellows will engage in strategic meetings; conduct research; and organize and lead presentations, and information-sharing sessions on the following specific democracy themes:

Defending Democratic Space

Freedoms are increasingly restricted for people who wish to voice their concerns, come together, and address those concerns by engaging stakeholders. In both physical and digital spaces, they face limitations on where they can meet, how they can interact, and what they can say or do. This is particularly true under authoritarian regimes, but also under new and established democracies where minority views are marginalized. As a result, citizens have less influence in political processes that impact their lives and are unable to hold their governments accountable. Promoting Inclusive Governance

The World Movement aims to strengthen inclusive democratic governance with an emphasis on empowering emerging leaders that are committed to democratic principles. As part of this effort, the World Movement facilitates engagement among emerging leaders from civil society and political parties; exploring constructive ways to enhance their political participation; building effective partnerships between civil society, government, and the private sector; and sustaining democratic movements that influence policy making and institutional reforms. - Facilitate online discussions
- Contribute to the World Movement social media posts
- Take part in planning and implementing other activities of the World Movement and
- Participate in relevant events and discussions in Washington, D.C., to deepen understanding of issues and build working relationships.
- Identify, compile, present, and creatively share discussion materials and results.

Each fellow will also make at least one formal presentation of their work during their fellowship. Presentations may be open to the public or geared to a more select audience and will typically focus on the fellow's research topic.

Upon the successful completion of each fellowship at NED, the fellow will serve as a regional/country focal point, working with the Hurford Youth Fellowship Alumni Network to remain involved and take the lead in facilitating World Movement for Democracy youth initiatives.

Eligibility: Applicants interested in the Hurford Youth Fellows Program must be no older than 30 years of age. They must demonstrate strong interest in democratic activism and in the advancement of democracy in their respective communities, as well as worldwide. Youth affiliated with civil society organizations are especially encouraged to apply.

Please Note: The Hurford Youth Fellows Program is open to applicants from any country. It does not provide scholarship funds or any other type of financial aid to university or graduate students, nor is it designed to support postdoctoral research. The program is not an educational program offering academic courses leading toward a degree. In addition, it does not provide financial support to those seeking to complete professional training programs, attend conferences, or pursue internships at other organizations.

English Language Requirement: A working knowledge of English is an important prerequisite for participation in the program for general communication purposes. All application materials must be submitted in English.

Selection Process: Fellows will be selected by the World Movement Secretariat staff, NED regional program staff, and the Hurford Youth Fellowship Alumni Network following an application process. Selection will be based on a set of criteria including demonstrated activism or interest in the advancement of democracy, a desire to network with others, and a clear explanation of how the fellowship will benefit their own efforts for advancing democracy.

Residency Requirements: Fellows are expected to work full-time on their fellowship projects at the NED office in Washington, D.C. Fellows may not hold any other fellowships or be otherwise employed during the fellowship period without the express permission of World Movement Secretariat staff. Additional fellowships or work opportunities that coincide with the fellowship period must be brought to the attention of World Movement Secretariat staff prior to the candidate's acceptance of a Hurford Fellowship. Failure to do so may result in the revocation of the fellowship.

Hurford Youth fellowships are not designed to support extensive fieldwork outside the Washington, D.C., area. The program recognizes the importance of establishing ties with counterparts elsewhere in

the United States and abroad and understands that professional obligations may sometimes necessitate domestic or international travel. However, no funds will be available to support fellows' professional travel. Fellows are expected to be in residence at the NED for the entirety of the fellowship period in order to take full advantage of the professional resources available in D.C.

Fellowship Support and Services: Each fellow will receive a monthly stipend for living expenses, plus basic health insurance and roundtrip travel to and from Washington, D.C. Stipends take into account the cost of living in Washington, D.C. Fellows are provided with a fully equipped office, including internet and email access, and a limited budget for fellowship-related long-distance phone calls.

The World Movement Secretariat staff plays a vital role in helping fellows realize their fellowship objectives by collaborating with them on their fellowship projects and engaging them in ongoing discussions about their work.

NED houses a Democracy Resource Center (DRC), which includes a library with some 20,000 works, including books, journals, grantee reports, and other publications on democracy. The DRC's expert staff members assist fellows with their research interests. Fellows may enjoy access to other local libraries as needed.

Cost of Living and Dependents: Applicants should bear in mind that the cost of living (housing, furniture, food, and other essential living expenses) in the Washington metropolitan area is very high and that fellowship stipends are *not* calculated to cover the financial needs of a family. *Fellows who wish to bring family members with them to Washington, D.C. will be expected to cover the costs of their dependents' roundtrip travel and stay within the United States.* The program does *not* ordinarily cover costs associated with dependents' health insurance. Please note that all dependents traveling to the United States on a J-2 dependent visa will be required to have basic health insurance coverage for the full period of their stay.

Visa Issues: Prior to their arrival in the United States, prospective fellows who are neither citizens nor permanent residents of the United States must secure a J-1 exchange visitor visa. The International Forum for Democratic Studies assists fellows with the documentation needed to obtain visas.
